He Gets Plenty of Business in the West

Be-Street Supt. Michael H. Whalen, who Strigmed to go into business, has found plenty ion in the contract line to do. Mr. Whalen has entered into a partnership with Edward Holland, who has had the contract for cleaning Broadway south of Four-teents street, and the contract has been modi-

and by increasing the pay to the contractor for a day patrol service, instead of a nigr nervice as formerly.

Birest cleaning employees are reticent as to the terms of the new contract, which is a private one made by Commissioner Beattie, but in the rate of compensation to the contracto

Whalen and Holland are also paid by the city for removing asses and garbage from Broadway at the rate of 35 cents per load, when the rage cost of earting all over the city under ober Coleman was about 80 cents a

and card playing spread to all parts of the continent.

The state records of Germany mention the fact that Radolph L in 1275, was fond of the game and played with his courtiers.

After the invention of paper the manufacture of cards became extensive, but declined somewhat when eard playing was forbidden by a veral of the German states and by the English government by account of the supposed immoral tendency.

Before the era of paper, cards in the Drient were made of ivory, papyrus and canwas, less frequently of the precious metals, and quite commonly of wood. Mr. Whileh has also served as a secumenter by appointment of Dock Commissioners have given him and his partner a couract for filling in the builthead on the Harliem hiver, between One Handred and Tairly-eighth and One Hundred and Fortieth street, for \$15,000.

The Street Cleaning Department is doing most of the Shine arry the material there from the East River dumps and the wages of the second whiten earry the material there from the East River dumps and the wages of the men who minoad them.

This property is adjacent to three blocks of land snater was realouging to Henry A. Crain, father of the Dock Commissioner, which has already seen filled in and which with be greatly increased in value, it is said, by the filling in of the bulknessed by Walen & Co.

Frestonia Fost, of the Dock Department, and to-day that his Department has breen unable to make terms with the Sirect-Cleaning Department to fill in bulkheeds and that is the reason that it has to make contracts with outsiders.

TO PREVENT DISEASE.

Chinese Medical System Has One Advantage Over Curs. Chinese physicians are under contracto keep their patients well, and I am inclined to think that that is the cor rect principle and one which some time will be generally adopted, says Dr. J

H. Kellogg. A doctor should be paid not for cur A doctor should be paid not for curing people with the should see that the sleeping rooms of his patrons are will ventilated, that the water supply is uneon aminat d, and that the general curroundings of a family are conducive to health. That would be a much higher vocation than that of following disease around just a little shead of the undertaker.

So few people live to a ripe old age nowadays, and how dreadful death is just as we are learning how to live when we have gathered a store of wisdom which will enable us to be something to ourselves and the world, then

we have to die.

A doctor ought to be fighting death
at better advantage than is possible
at the time he is usually called—that is
when disease is well seated. He ought
to keep death at bay instead of fighting him hand to hand.
